SUMMARY

FULL STACK DEVELOPER (JavaScript | React.js | Node.js | MERN)
Full Stack Developer with **2+ years** of experience designing and developing scalable **web applications**, **internal enterprise tools**, and **browser extensions**. **Experienced in JavaScript, React.js, Node.js, Express.js, MongoDB, and MySQL. Skilled in REST API development, authentication (JWT)**, database **design**, **debugging,** and performance optimization. Strong understanding of **client-server architecture**, **Agile workflows**, and **CI/CD deployment.**

TECHNICAL SKILLS

- **Programming Languages:**
  JavaScript (ES6+), HTML5, CSS3, Python, PHP, Java, C++
- **Frontend Development:**
  React.js, React Hooks, Context API, Responsive UI, Bootstrap, Material UI, DOM Manipulation, Axios, Fetch API
- **Backend Development:**
  Node.js, Express.js, REST API Development, Authentication, JWT, Middleware, Error Handling, File Upload (Multer)
- **Databases:**
  MongoDB, MySQL, Database Design, CRUD Operations, Query Optimization
- **Tools & DevOps:**
  Git, GitHub, GitHub Actions, Postman, Chrome DevTools, CI/CD Pipeline, Debugging, Performance Optimization
- **Other Knowledge:**
  MVC Architecture, API Integration, Agile Methodology, Cross-Browser Compatibility, Chrome Extension APIs

PROFESSIONAL EXPERIENCE

Full Stack Developer — SysTools Software Pvt Ltd, Dwarka
July 2024 – Present

• Developed HRMS and Cyber Case Management applications using MERN stack (MongoDB, Express.js, React.js, Node.js)
• Designed REST APIs and implemented JWT based authentication and role-based access control
• Built dashboards and reporting modules using React.js and Chart.js
• Created Chrome Extensions using JavaScript and DOM manipulation to automate internal workflows

- Implemented CI/CD pipeline using GitHub Actions and optimized database queries for performance

Full Stack Intern — SysTools Software Pvt Ltd | Apr 2024 – Jun 2024

- Assisted in backend API development using Node.js and Express.js
- Implemented CRUD operations and database integration with MongoDB/MySQL
- Performed API testing using Postman and debugging of application issues

MERN Stack Intern — ManthanIT Solutions (Remote) | Feb 2023 – Mar 2024

- Built full-stack web applications with authentication and protected routes
- Developed ticket booking system with login, seat selection and database storage

PROJECTS HIGHLIGHTS

Work Monitoring System (MERN Stack)

- Employee activity & screenshot tracking dashboard
- Role-based panels using React & Node

Cyber Case Management System (MERN Stack)

- Role-based incident tracking platform
- REST APIs using Node.js & Express.js
- MongoDB searchable records & dashboard

HRMS Portal (MERN Stack)

- Attendance & leave workflow system
- Authentication and protected routes

QuizBuddy (MERN Stack)

- JWT login quiz & live polling dashboard
- Dynamic forms using React & Chart.js

ChatGuard – Chrome Extension

- WhatsApp Web chat privacy & blur masking
- DOM manipulation using Chrome Extension APIs

Premium Keyword Wizard (Chrome Extension)

- Google SERP keyword scraper automation
- CSV export using JavaScript

Email Header Analyzer Tool

- Email spoof detection using header parsing logic

LinkedIn Link Extractor

- Automation tool to extract URLs and export CSV reports

EDUCATION & CERTIFICATIONS

- **MCA**, Jagannath University — *Distinction* | May 2024
  BCA, Jagannath University | May 2022
  Certifications:
  - Full Stack Development (MERN) – VSIT (2023)
  - Python Programming + AI/ML Basics – VSIT (2023)

ACHIEVEMENTS & WORKSHOPS

- 2nd Place – Techo-Enhancer Coding Quiz
- 3rd Place – Algofinity Programming Challenge
- Attendee – SONIC AI/ML Workshop, Pythonx ML Bootcamp
