3+ years | 100+ tools built | 200+ production users | 1,000+ concurrent requests | 99.9% uptime

PROFESSIONAL SUMMARY

Full Stack Engineer with 3+ years of experience building production MERN and TypeScript applications. Built a 100+ tool browser-based platform for PDF, media and email/mailbox conversion, plus HRMS and case-management systems serving 200+ users. Experienced in RESTful API design, RBAC/JWT security, asynchronous processing, system design, and AWS, Docker and GitHub Actions CI/CD, sustaining 99.9% uptime. Currently exploring Generative AI, LLMs, RAG and LangChain.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3
Frontend	React.js, Redux, Context API, React Hooks, Material UI, Chart.js
Backend	Node.js, Express.js, RESTful APIs, GraphQL, WebSockets, JWT, Role-Based Access Control (RBAC)
Databases	MongoDB, Mongoose, MySQL, PostgreSQL, Redis
Architecture	System Design, Microservices, MVC, Design Patterns, Event-Driven Architecture, Asynchronous Processing, Data Structures & Algorithms
Cloud & DevOps	AWS (EC2, S3, IAM, RDS, Lambda), Docker, Docker Compose, Nginx, GitHub Actions, CI/CD, Linux
Testing & Tools	Jest, React Testing Library, Unit & Integration Testing, TDD, Postman, Git, GitHub, Jira, Agile/Scrum
AI / GenAI	Generative AI, LLMs, RAG, Prompt Engineering, LangChain (currently exploring)

PROFESSIONAL EXPERIENCE

Full Stack Developer
Jul 2024 – Present

SysTools Software Pvt Ltd | Dwarka, Delhi

- Built and scaled 100+ browser-based tools for PDF editing/conversion, media conversion and email/mailbox migration (Outlook, Gmail, PST, MBOX, EML) using React.js and Node.js, forming a core part of the production tool suite
- Designed and developed HRMS and Cyber Case Management platforms with TypeScript, the MERN stack and Role-Based Access Control (RBAC), serving 200+ internal users with zero unauthorized access incidents
- Engineered asynchronous, event-driven job workflows for leave approvals, screenshot processing and automated reports, decoupling long-running tasks from request cycles
- Applied system design principles (caching, load balancing, service decomposition) for scalability, so APIs reliably handle 1,000+ concurrent requests; improved API response times by 35% through MongoDB and MySQL indexing and query optimization
- Deployed and maintained applications on Amazon Web Services (AWS: EC2, S3, IAM, RDS), sustaining 99.9% uptime with scalable storage for 10,000+ documents
- Built GitHub Actions CI/CD pipelines, cutting deployment time by 60% with zero-downtime releases; containerized applications with Docker and Docker Compose, reducing developer onboarding time by 50%
- Wrote Jest unit and integration tests, achieving 80%+ coverage on critical backend modules
- Delivered React.js and Chart.js dashboards that reduced manual reporting effort by 40%, and a Chrome Extension that saves about 5 hours per week

Full Stack Developer Intern
Apr 2024 – Jun 2024

SysTools Software Pvt Ltd | Dwarka, Delhi

- Built 10+ RESTful APIs in TypeScript and Node.js, shipping 3 production modules to live users
- Implemented asynchronous file-upload and batch-processing workflows using Node.js event-driven patterns
- Resolved 20+ critical bugs before release through Jest and Postman API testing; cut query execution time by 20% by optimizing MongoDB and MySQL queries

MERN Stack Developer

Feb 2023 – Mar 2024

ManthanIT Solutions | Remote

- Delivered a production HRMS platform for Jubilant (Gurugram) covering employee onboarding, hiring workflow and lifecycle management modules
- Built 3 full-stack applications with JWT authentication, protected routes, session management and Redux state management
- Developed a ticket booking system with asynchronous seat-lock logic, validated across 500+ test bookings in QA

SELECTED PROJECTS

HRMS Portal

TypeScript, MERN, AWS S3, JWT, RBAC, Docker

- Built an HR platform with asynchronous leave-approval workflows, attendance tracking and AWS S3 document storage
- Deployed to 200+ production users with zero critical post-release bugs

Work Monitoring System

TypeScript, React.js, Redux, Node.js, MongoDB, Docker, Jest

- Engineered a real-time employee activity and screenshot-tracking dashboard with asynchronous capture jobs and role-based admin/employee panels
- Achieved 80%+ Jest coverage and sub-2s dashboard load across 50+ tracked employees

Cyber Case Management System

TypeScript, MERN, System Design, MongoDB Indexing

- Developed a role-based incident-tracking system with asynchronous search indexing, dynamic filters and CSV export
- Supports full-text MongoDB search across 1,000+ incident records

QuizBuddy – Live Quiz & Polling App

TypeScript, MERN, Redux, Chart.js, Jest

- Built a real-time quiz and polling platform with JWT-secured login, Redux state management and an analytics dashboard
- Supports 100+ concurrent user sessions with full Jest test coverage

EDUCATION

Master of Computer Applications (MCA) – Distinction | Jagannath University — May 2024

Bachelor of Computer Applications (BCA) | Jagannath University — May 2022

CERTIFICATIONS

- MERN Stack Full Stack Development – ISO Certified, VSIT, 2023
- Python & AI/ML Fundamentals – ISO Certified, VSIT, 2023
- Docker for Developers (self-directed)

AWARDS / RECOGNITION

- Best Dedicated Employee, SysTools Software Pvt Ltd
- 2nd Place, Techo-Enhancer Quiz (Inter-College)
- 3rd Place, Algofinity Challenge (Programming)
